Viewing and sharing calendars

You can generate an online calendar showing funding opportunities from a search, a folder of bookmarks, or a list of opportunities. The image on the next page shows a calendar created from a search for funding opportunities from our major sponsors. The online calendar is presented in a month-by-month view.

All online calendars have a permanent URL, which can be circulated to colleagues and the online calendar **will update** automatically when RP.com's database is updated.

NB: This calendar opens as a pop up window, so if you are having trouble viewing it, please check whether your browser is blocking pop-ups for the site.

Each funding opportunity is included as a separate event in the calendar. Hover your cursor over a calendar entry to see its full title. To view a summary of the opportunity, click on its entry, which will bring up a pop-up of the basic information, along with a link to see the full information on the RP.com site.

If a particular date has too many events to display, the top bar will indicate this by showing "+ 'x' more". You can expand the full list by clicking on this text.

Funding Calendar

How to generate an online calendar

- a) **From a search:** Calendars can be created from saved or unsaved searches. In the Funding panel, run your search, click the search panel so that it is highlighted in blue (see image below) and click the 'Calendar' button, in the action bar. This will open up a calendar for this search in a new window. A calendar generated from a search will always display the latest results of the search (i.e. it **will automatically update whenever a user views it**).

The screenshot shows a web interface with a top navigation bar containing icons for Save, New, Delete, Email, Subscribe, Move, Edit, Export, Calendar, and Magazine. The 'Calendar' icon is circled in red. Below the navigation bar is a section titled 'Major sponsors - all funding opportunities'. This section contains a search panel with a search input field, a 'Sponsor (browse)' dropdown, an 'Is any of' dropdown, and a list of sponsor names: Engineering and F, Leverhulme Trust, Action Medical Re, Arthritis Research, and Diabetes UK, GB. A 'Select' button is below the list. To the right of the search panel, a callout box labeled 'Search panel' has an arrow pointing to the blue background of the search panel. Below the search panel are options for 'Include closed calls' and a 'Search' button. Further down, there are 'Group by' and 'Sort by' dropdowns, and a 'Sort' button. At the bottom, there is a table with columns for 'Closing date', '459 items', '50 100 200 results per page.', and 'Flag'. The table contains several rows of funding opportunities, including 'Project grants' from Action Medical Research, GB, and 'Equipment grants' from Arthritis Research UK, GB.

Closing date	459 items	50 100 200 results per page.	Flag
Action Medical Research, GB			
22 Nov 11	Project grants Action Medical Research, GB		
Arthritis Research UK, GB			
26 Oct 11	Project grants Arthritis Research UK, GB		
26 Oct 11	Equipment grants Arthritis Research UK, GB		
02 Nov 11	Experimental osteoarthritis treatment centre for biomechanical interventions Arthritis Research UK, GB		

- b) **From a folder of bookmarks:** You generate a calendar from a folder of bookmarks in the same way as you would for a search. In the Funding panel, click on the bookmark folder, click the folder panel and click the 'Calendar' button. Calendars generated from a folder of bookmarks will always show the current contents of that folder. **If the contents are changed manually, this will be reflected in the calendar.**

The screenshot shows a web application interface with a top toolbar containing buttons for Save, New, Delete, Email, Subscribe, Move, Edit, Export, Calendar (circled in red), and Magazine. Below the toolbar, the main content area is titled "Travel grants - General Science Subjects". It features a search bar, a search filter panel with "Full text" and "Contains" dropdowns, a search input field, and a "Search" button. A callout box labeled "Folder panel" points to the search filter panel. Below the search panel, there are "Group by" and "Sort by" dropdowns, and a "Sort" button. The main content area displays a list of travel grants with columns for "Closing date", "4 items", "50 100 200 results per page.", and "Flag". The list items are:

Closing date	4 items	50 100 200 results per page.	Flag
Aug 12			
30 Aug 12	Selby travelling fellowship Australian Academy of Science, AU		
---	Overseas travel grants Engineering and Physical Sciences Research Council , GB		
---	Regenerative medicine - exchange grant European Science Foundation, EU		
---	Regenerative medicine - short visit European Science Foundation, EU		

- c) **From a list of opportunities:** To generate a calendar from a list of opportunities, select the opportunities you wish to include by checking the tick box for the opportunities in the search listings (see image below), and then click the 'Calendar' button. This list of opportunities included in this calendar **will never change**.

<input type="checkbox"/>	Closing date	64 items	50	100	200	results per page.	Flag
United Kingdom							
<input type="checkbox"/>	---	Dissemination awards in biomedical ethics					
Wellcome Trust, GB							
United States							
<input type="checkbox"/>	01 Nov 11	Frank S and Elizabeth D Brewer prize					
American Society of Church History, US							
<input checked="" type="checkbox"/>	03 Nov 11	Secondary analyses and archiving of social and behavioral datasets in aging (R03)					
NIH: National Institute on Aging, US							
<input type="checkbox"/>	15 Nov 11	H Earle Johnson bequest for book publication subvention					
Society for American Music, US							
<input type="checkbox"/>	15 Dec 11	Barbara Thom postdoctoral fellowships					
Huntington Library, US							
<input checked="" type="checkbox"/>	15 Jan 12	Charles A Lindbergh chair in aerospace history					
Smithsonian Institution, US							
<input type="checkbox"/>	01 Feb 12	China and Inner Asia Council small grants program					
Association for Asian Studies, US							

Important Note: Any opportunities that **do not** have a closing date will **not** be included in the calendar. (These opportunities are displayed as having a closing date of '---'.)

Downloading and Importing Calendar Files

a) How to subscribe to a calendar (*recommended option*)

You also have the option to subscribe to an online calendar, using your desktop calendar programme. Clicking the  [Subscribe](#) link when viewing an online calendar should open up your calendar programme and initiate the subscribe option.

Subscribing to an online calendar means that the calendar can be set to check the site periodically and **will update** the user's calendar with, for example, the latest results of a search.

Important Note: This is only available to users when on campus, as it relies on the 'Campus access' to validate the user when checking for new events.

b) How to download a calendar file

You can download the set of opportunities included in a calendar as an .ics file, by clicking the  [Download](#) link available when viewing an online calendar. This file is compatible with Outlook 2000 and above, as well as other calendar programmes which conform to the [iCalendar standards](#).

Once downloaded, users can import this file into their calendar programme, which will add events for all of the funding opportunities included in the file.

Each event will contain the following information on the opportunity:

- Opportunity name
- Sponsor name
- Closing date (which will be the event date)
- Summary text
- Award Amount Max
- Any institutional annotations

Once downloaded and imported, this list of opportunities **will not** change. To add more opportunities to this calendar, you must select the opportunities and download a new calendar file. You can also download a calendar file through the 'Export' button in the action bar, available when you have a list of opportunities selected.
